DataMembership

COMPLIANCE PACK

Data you can dial with confidence.

How every DataMembership record is opted in, checked and screened before it reaches you — and the tools that keep you protected after it lands.

- ✓ Fully opted in
- ✓ TPS & CTPS screened same day
- ✓ ICO registered
- ✓ Proof of consent on every record

datamembership.com · For buyers, their compliance teams and their clients

WHY BUYERS CHOOSE DATAMEMBERSHIP

Compliance built in, from sign-up to delivery.

We take care of the hard parts of data compliance before a single record reaches you — so your team can focus on calling, mailing and selling.

100%
of records carry their opt-in proof

Same day
TPS & CTPS screening on every export

24 hours
from order to data in your login

Fully opted in

Every record shows when the person opted in (date and time), the website they joined on, and the marketing channels they chose.

Screened the day we send it

Every record is checked against the TPS and Corporate TPS registers on the day your data is exported. Known do-not-call and dead numbers are always removed.

ICO registered

DataMembership is registered with the Information Commissioner's Office (ZC263749) and has a dedicated Data Protection Officer.

Opt-outs passed straight to you

If anyone from your data asks not to be contacted, they appear in your login automatically — ready to download and suppress.

Your suppression, honoured

Upload your existing customers or do-not-call list and we remove them before we deliver, along with anyone you've already had from us.

Proof on demand

A compliance certificate with every delivery, and a consent lookup that shows the opt-in record for any number or email in seconds.

OUR CONSUMER NETWORK

Real UK consumers who chose to hear from companies like yours

Our records come from UK adults who joined the survey, lifestyle and prize sites in our network. When they register, they tell us which channels they're happy to be contacted on, and they're told clearly that their details are shared with carefully selected companies through DataMembership.com.

How someone joins

1 Registers

Signs up on one of our sites and confirms they're 18 or over.

2 Chooses channels

Ticks how they're happy to hear from us and our partners — post, phone and email.

3 Is kept informed

A clear privacy notice and their right to object are shown at sign-up.

4 Opt-in recorded

The date, time, website and channels are saved with their record.

What the proof looks like

Opt-in record — included on every record you receive	Example
Name	Sarah J…
Opted in (date & time)	14/09/2026 18:42:07
Website	thelifestylesurvey.com
Channels chosen	✓ Post ✓ Phone ✓ Email
TPS / CTPS screened	On the day of export

Illustrative example. Email is supplied only for people who chose to hear from that named organisation.

BEFORE IT REACHES YOU

Every order goes through the same five checks

You can watch each step happen on the live order tracker in your login.

1

Selected to your audience

Records are pulled to your exact targeting. Your suppression file, and anyone you've already received from us, are removed first.

2

Quality checked by a person

Every field is populated, and every record carries its opt-in date and time, the website it came from and the consent channels chosen.

3

TPS & CTPS screened on the day

Every number is screened against the Telephone Preference Service and Corporate TPS registers on the day your data is exported. Known do-not-call and dead numbers are always excluded.

4

Live-number check (optional)

Choose "Live Numbers Only (HLR'd)" and every mobile is checked live with the networks, with dead numbers removed before delivery.

5

Delivered securely to your login

Your file arrives in your private login within 24 hours, with its compliance certificate — or straight into your dialler or CRM if you've connected one.

24 hrs

Fast and fully checked. Most orders are screened, checked and in your login within 24 hours — and you're notified by email and WhatsApp the moment your data is ready.

INCLUDED WITH EVERY ACCOUNT

Everything your compliance team needs, in one login

No extra cost, no forms to request. Every tool below is ready the moment your first delivery lands.

Compliance certificates

A certificate for every delivery showing where the records opted in, when, the channels chosen and when they were TPS/CTPS screened. Download as a PDF.

Consent lookup

Type in any mobile number or email from your data and see exactly when and where that person opted in — perfect for queries and audits.

Opt-outs feed

Anyone from your data who asks not to be contacted appears in your login automatically, with a one-click CSV for your suppression or DNC list.

Suppression uploads

Upload your customers, your own do-not-call list or previous purchases, and we remove them before every delivery.

Call results

Upload your dialler's outcomes to see your connect rate, answerphones and sales at a glance — with tips to get even more from every record.

Clean your own data

Run a live-number check on any list of your own, straight from your login — dead numbers flagged before you dial.

Dialler & CRM delivery

Send your data straight into your dialler or CRM, so records never sit in inboxes or on laptops.

Live order tracker

Follow every order through selection, quality checks and screening to delivery, step by step.

OUR APPROACH

Built around UK data protection and marketing law

DataMembership is designed around UK GDPR, the Privacy and Electronic Communications Regulations (PECR) and the Data (Use and Access) Act 2025.

Post and live telephone

Supplied for post and live telephone marketing under legitimate interests, supported by our written Legitimate Interests Assessment, with every number TPS and CTPS screened.

Email

Email addresses are supplied only for people who chose to hear from that named organisation, in line with PECR.

Assessed and documented

Our processing is covered by a Data Protection Impact Assessment and reviewed every year by our Data Protection Officer.

Right to object, everywhere

Anyone can object at sign-up, on our sites or through any buyer. Objections are suppressed for good and passed to every company that received that person.

Vetted buyers

Every buyer is vetted and confirms our buyer declaration before their first download, renewed every year. New buyers also give their ICO registration number.

Questions answered quickly

Data protection requests and complaints are acknowledged within 30 days, and our team is on hand to support your own compliance queries.
